

Exciting news: accommodation financial support for students from low-income Countries at the 2024 CED/NOF-IADR Oral Health Congress!

We are thrilled to share some exciting news regarding the forthcoming 2024 CED/NOF-IADR Oral Health Congress. In collaboration with the Geneva Tourism & Convention Bureau, we are proud to announce the establishment of financial support for accommodation, tailored to benefit students from low-income countries attending the event.

As part of our commitment to fostering inclusivity and accessibility, we will be offering numerous rooms at a special, reduced rate during the registration process via our dedicated website: <https://bit.ly/47TKHPz>

This initiative aims to ease the financial burden on students, enabling them to fully engage in the enriching experience of the congress. In collaboration with the Geneva Tourism & Convention Bureau, we are excited to offer a discount of 125 CHF per room per night (for 2 nights) at select hotels including Ibis Geneve Centre Nations, Ibis Geneve Centre Lac and Ibis Geneve Centre Gare. This incredible offer reduces room rates to as low as 44 CHF per night!

More details will be available as soon as the registration opens on the dedicated website.

For the latest updates and further details about the accommodation support, please visit our official Congress website, and follow us on **Instagram**, **Linkedin** and **Facebook**

Your support and enthusiasm for this endeavour are invaluable, and we encourage you to spread the word within your networks.
